SUMMARY

Java Developer and Computer Science student with strong foundations in **Data Structures and Algorithms**. Solved **300+ LeetCode problems** with a **1600+ contest rating**. Experienced in backend development and implementing API protection mechanisms such as rate limiting. Passionate about building scalable backend systems and optimizing performance.

EDUCATION

- Galgotias University** Noida, Uttar Pradesh
• *B.Tech in Computer Science and Engineering* 2023 – 2027 (*Expected*)

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, C
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming
Backend: REST APIs, API Design, Rate Limiting
Machine Learning & AI: TensorFlow, Keras, OpenCV, LangChain, Pinecone
Databases: MongoDB, SQL (MySQL, PostgreSQL)
Tools: Git, GitHub, IntelliJ IDEA, VS Code, Postman

EXPERIENCE

- **Python Developer Intern** Oct 2024 – Nov 2024
AICTE Edunet Foundation Remote
 - Developed **Scrapetron**, a Python tool using BeautifulSoup to extract structured data from dynamic websites.
 - Exported scraped data into **JSON and CSV** formats for analysis.
 - Optimized parsing logic improving data extraction performance by **20%**.
- **Open Source Contributor** Oct 2024 – Nov 2024
GirlScript Summer of Code Extended Remote
 - Resolved **4 UI issues** improving application responsiveness and navigation.
 - Contributed **5+ pull requests** including documentation updates and code improvements.
- **AI-ML Virtual Intern** Jul 2024 – Sep 2024
Google for Developers & AICTE EduSkills Remote
 - Completed a 10-week virtual internship focused on artificial intelligence and machine learning applications.

PROJECTS

- **API Rate Limiter** | *Java*
 - Designed a rate limiting system to prevent **API abuse and excessive request traffic**.
 - Implemented request throttling to restrict client requests within a defined time window.
 - Improved backend stability by preventing server overload during high request volumes.
- **MedGen** | *Python, LangChain, Pinecone*
 - Built a Retrieval-Augmented Generation chatbot capable of answering medical queries using document retrieval.
 - Integrated Pinecone vector database for semantic search and LangChain for LLM orchestration.

ACHIEVEMENTS

- **LeetCode:** Solved **300+ problems** with a **1600+ contest rating**.
- **Smart India Hackathon 2024:** Selected for internal university rounds.
- **Open Source:** Contributor during GirlScript Summer of Code Extended 2024.
